Oluwashijibomi Owolabi Jeremiah

Full-Stack Software Developer

oluwashijibomiolaseni@gmail.com +234 907 203 8272 Ibadan, Nigeria My LinkedIn

Profile

Full-Stack Software Developer with hands-on experience building and deploying web applications, AI-powered platforms, and multi-tenant SaaS products. Proficient in React, Next.js, TypeScript, Python, FastAPI, PostgreSQL, and LLM integration. Experienced in API development, authentication, database design, AI application architecture, and production deployment, with a focus on building reliable, practical software.

Professional Experience

Freelance Software Developer 2022 – Present
Remote

- Built and deployed responsive web applications using React, Next.js, TypeScript, JavaScript, HTML, and CSS.
- Developed backend services and REST APIs using Python, Node.js, and MySQL.
- Integrated third-party APIs and services into production web applications.
- Optimized application performance, responsiveness, and user experience.
- Troubleshot and resolved frontend, backend, database, and deployment issues.
- Led a technical team through the design, development, and deployment of a production application.

IT Support Specialist Intern, *Graphic Packaging International* 04/2025 – 10/2025
Ibadan, Nigeria

- Provided technical support for staff, troubleshooting hardware, software, and network-related issues.
- Configured and monitored network systems using Cisco Packet Tracer and real-world networking devices.
- Supported data organization, system documentation, and digital workflow optimization initiatives.

Education

Bachelor of Science (B.Sc.) | Computer Science, *Lead City University* 2022 – 2026
CGPA: 4.32 / 5.00 Ibadan, Nigeria

Skills

Frontend & Web
TypeScript, JavaScript, React, Next.js, Tailwind CSS, HTML5, CSS, Responsive Web Design, WordPress

Databases
PostgreSQL, MySQL, pgvector, Data Modeling

AI & Machine Learning
Machine Learning, scikit-learn, LLM Integration (Groq), Claude Code, Sentence-BERT, FAISS

Backend & APIs
Python, FastAPI, Flask, Node.js, Express, REST APIs, Third-Party API Integration

Cloud & DevOps
AWS, Docker, CI/CD Pipelines, Render Deployment, Git/GitHub

Soft Skills
Self-Directed Execution, Structured Problem-Solving, Attention to Detail, Continuous Learning

Projects

NexAgent — Multi-Tenant AI Customer Support SaaS Platform

- Built and deployed a multi-tenant SaaS platform using FastAPI, PostgreSQL with pgvector, and a React/TypeScript front end.
- Integrated third-party LLM APIs (Groq) and implemented multi-tenant authentication, approval gating, and role-based access control.
- Deployed and maintained the live application on Render, managing the full pipeline from development to production.

Personal Portfolio — Next.js 15

- Built and deployed a production-ready personal portfolio using Next.js 15 (App Router) and TypeScript, deployed on Render.
- Implemented a 3D particle hero section and animated project, skills, and experience sections for an engaging user experience.
- Designed a CMS-style data file architecture for maintainable, easily updatable content management.

PhishGuard — Machine Learning Phishing Detection System

- Built a phishing and malicious URL detection system, evaluating five classification models (Decision Tree, Random Forest, SVM, XGBoost, ANN) and selecting Random Forest for deployment.
- Designed a responsive interface for fast, real-time analysis and classification.

LECTURE-LINK — AI-Integrated Academic Platform

- Built and deployed a full-stack AI-powered learning platform using React, TypeScript, Flask, and MySQL.
- Developed a RAG-based AI chatbot using Sentence-BERT and FAISS to provide contextual answers from lecturer-uploaded course materials.
- Designed and implemented REST APIs, database models, authentication, and integration between the frontend, backend, and AI services.
- Deployed and maintained the application in production, handling API integrations, service configuration, and reliability issues.
- Evaluated the platform with 70 students, achieving a System Usability Scale (SUS) score of 81.5.
